

# iC550 Cutter

## SPECIFICATIONS

Length	29.2 in.	(741 mm)
Width	6.9 in.	(175 mm)
Height	8.6 in.	(218 mm)
Weight (excl. battery)	44.4 lbs.	(20.1 kg)
Cutter Opening	5.9 in	(150 mm)
Cutter Rating	A6/B6/C7/E7	
Battery	DeWalt® Lithium-ion	
Battery Voltage	36V	

## DESIGN & OPERATIONAL FEATURES

- Lightweight, solid aluminum housing is not susceptible to cracking like plastic housings on other tools
- Short length of tool allows it to fit into confined spaces competitive tools can't access
- High capacity, single stage pumps reduce total cutting time
- Audible change in operation indicates when the battery is low
- Tool will not suddenly stop operating due to a low battery without warning
- Cutter blades and center bolt are designed to access tight places and make difficult cuts
- Ergonomic handle and control valve makes tool easy to operate in all positions
- High intensity integrated LED lights illuminate the area you are working on
- Each tool is provided with two DeWalt® 36V lithium-ion batteries and one heavy duty charger
- DeWalt® batteries are compatible/interchangeable with all 36V DeWalt equipment
- Rotating handle allows tool to be repositioned with minimal effort
- Designed to cut through ultra high strength Boron steel used in today's vehicles
